Winery Brief

Our tasting salon is a small, intimate space where club members and guests can taste through currently available wines. The "degustation" experience at L'Aventure is for wine aficionados — no gift shops or gimmicks here. The emphasis is on learning about our west side *terroir*, and understanding our winemaking and grape growing philosophies. One of our team members will expertly guide you through your tasting, and will be your entree to club L'Aventure.

In 1998, Stephan Asseo left Bordeaux after 17 vintages at his families three properties, and brought his wife and three children on the "adventure" of a lifetime, settling in Paso Robles west side, to create L'Aventure. Here, in our unique *terroir*, Stephan handcrafts estate produced, artisan wines that reflect both his classical Bordeaux training, as well as the distinctive fruit from our west side Paso wine field. His "Paso blends" — Estate Cuvee and *Optimus* — combine Cabernet Sauvignon and Syrah, to create what are among the most innovative, signature blends in the AVA.
